What most interests me?

I've always been interested in Cybersecurity since watching Garcia in Criminal Minds. I think what interests me most is Ethical Hacking, so that I can help organizations identify weaknesses so they can improve them.

Who is the audience?

Cybersecurity Recruiters and potentially government employers.

In what ways can my strengths, values, and interest in cybersecurity support the security goals of various organizations?

My strengths and values will help organizations identify vulnerabilities in their systems so they can be resolved before threat actors take advantage of them, protecting the organizations and the people they serve.

Statement:

I am a highly motivated and detail-oriented cybersecurity professional. I actively work to identify and analyze potential threats and vulnerabilities, and communicate them to organizations to help protect organizations and the people they serve and minimize risk.
